EVS ANNOUNCES STRONGER 2021 RESULTS

Based on current projections, the EVS Board of Directors states that the 2021 full year revenue may be higher than the full year revenue guidance of EUR 115 million – EUR 125 million announced on August 24, 2021 within the framework of the first half 2021 results reporting.

Therefore, the EVS Board of Directors announces that the 2021 full year revenue guidance is being increased with EUR 5 million and is expected to land between EUR 120 million and EUR 130 million.

This revenue increase is based on an accelerated after-Covid catch-up and also on a continuous business recovery in all market pillars. Nevertheless, we remain very concerned about the worldwide shortages in the supply chain.

The 3Q21 trading update will be communicated on November 18, 2021, as per EVS corporate calendar.

Forward Looking Statements

This press release contains forward-looking statements with respect to the business, financial condition, and results of operations of EVS and its affiliates. These statements are based on the current expectations or beliefs of EVS's management and are subject to a number of risks and uncertainties that could cause actual results or performance of the Company to differ materially from those contemplated in such forward-looking statements. These risks and uncertainties relate to changes in technology and market requirements, the company's concentration on one industry, decline in demand for the company's products and those of its affiliates, inability to timely develop and introduce new technologies, products and applications, and loss of market share and pressure on pricing resulting from competition which could cause the actual results or performance of the company to differ materially from those contemplated in such forward-looking statements. EVS undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
