EVS ANNOUNCES MAJOR SPORTS CONTRACT IN TURKMENISTAN

Liege, Belgium, June 6, 2013 – EVS Broadcast Equipment, the leading provider of live video production systems, today announces it has recently signed a major contract with a strategic customer in Turkmenistan.

This deal covers the delivery of different solutions for an ambitious new Sport Complex project (incl. arenas, various studio operations, and OB vans) in Turkmenistan. With the Ashgabat Olympic Complex (Phase 1) project, Turkmenistan is creating an Olympic Standard series of Sporting Arena's, with the aim to attract athletes from around the world. The solutions include, among others, a large range of EVS products, of which video production servers from the XT and XS families, storage, advanced content management and media sharing workflow solutions and service.

The contract is valued around EUR 3.5 million and is expected to be recorded in the EMEA region, mainly in the second half of 2013.

Forward Looking Statements

This press release contains forward-looking statements with respect to the business, financial condition, and results of operations of EVS and its affiliates. These statements are based on the current expectations or beliefs of EVS's management and are subject to a number of risks and uncertainties that could cause actual results or performance of the Company to differ materially from those contemplated in such forward-looking statements. These risks and uncertainties relate to changes in technology and market requirements, the company's concentration on one industry, decline in demand for the company's products and those of its affiliates, inability to timely develop and introduce new technologies, products and applications, and loss of market share and pressure on pricing resulting from competition which could cause the actual results or performance of the company to differ materially from those contemplated in such forward-looking statements. EVS undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

About EVS

EVS provides its customers with reliable and innovative technology to enable the production of live, enriched video programming, allowing them to work more efficiently and boost their revenue streams. Its industry-leading broadcast and media production systems are used by broadcasters, production companies, post-production facilities, film studios, content owners and archive libraries around the globe. It spans four key markets – Sports, Entertainment, News and Media.

Founded in 1994, its innovative Live Slow Motion system revolutionised live broadcasting. Its reliable and integrated tapeless solutions, based around its market-leading XT server range, are now widely used to deliver live productions worldwide. Today, it continues to develop practical innovations, such as its C-Cast second-screen delivery platform, to help customers maximise the value of their media content.

The company is headquartered in Belgium and has offices in Europe, the Middle East, Asia and North America. Approximately 465 EVS professionals from 20 offices are selling its branded products in over 100 countries, and provide customer support globally. EVS is a public company traded on Euronext Brussels: EVS, ISIN: BE0003820371. For more information, please visit www.evs.com.

dcinex, of which EVS owns 41.3%, is the European leader for Digital Cinema technology and services in Europe with more than 5,500 committed digital screens in Europe, out of which 3,700 have already been deployed. www.dcinex.com.
