## EVS APPOINTS PATRICK TILLIEUX AS DIRECTOR AND MARTIN DE PRYCKER AS BOARD OBSERVER

In its recent meeting, the Board of Directors of EVS has decided, with immediate effect:

- The cooptation of Patrick Tillieux as Director of EVS. He takes the seat that was vacant following the departure of Joop Janssen in October 2014. His mandate will be proposed for confirmation at the next Ordinary General Meeting in May 2016.
- The appointment of Martin De Prycker as Board Observer. He will be proposed as Director at the next Ordinary General Meeting in May 2016.

Patrick Tillieux is a non-Executive Director in various companies: Euronews (France), PLAY Telecom (Poland), Ceske Radiokomunikace (Czech Republic), Towercom (Slovakia) and Brussels Airport (Belgium). Between 2012 and 2014, he served as Director & CEO of Red Bee Media Ltd. (global broadcast and media services provider, now part of Ericsson), driving and operating a strategic turnaround and a successful financial restructuring of the company. He was Chief Operating Officer and a Member of Executive Board at ProSiebenSat.1 Media AG between 2007 and 2009. From 2001 to 2007, he held various executive functions within the SBS group (CEO of SBS Belgium, CEO of SBS Nederland and lastly CEO of SBS Broadcasting Europe). Before that, he occupied executive functions within different broadcasters, including Eurosport, TF1, RTL Nederland, CANAL+ Holland and CANAL+ Flanders. He holds a M. Sc. in civil engineering and a M. Sc. in industrial administration from the University of Leuven (Belgium).

Martin De Prycker is Managing Partner at Qbic Fund (an interuniversity fund supporting spin-off companies in Belgium) and Managing Director at Innoconsult (consultancy firm specialized in Innovation Management and ICT solutions). Between 2009 and 2013, he was Founder & CEO of Caliopa (a startup in silicon photonics allowing the transport of hundreds of Gbps on optical fiber). Between 2002 and 2009, he was CEO of Barco (display hardware and software manufacturer based in Belgium). Under his leadership, he focused and made the company grow in markets using displays, and spinning off the non-core product lines. Prior to that, he was CTO and member of the Executive Committee of Alcatel-Lucent. Before becoming CTO of Alcatel-Lucent, he was responsible for establishing Alcatel-Lucent's worldwide market leadership in the broadband access market. He is a member of the Board of Directors of Proximus, Newtec (Belgian company designing, developing and manufacturing equipment and technologies for satellite communications), Anteryon, Track4C and Venture Spirit. Mr De Prycker holds a Ph.D in Computer Sciences, a M.Sc. in Electronics from the University of Ghent, as well as a MBA from the University of Antwerp.

Pierre Rion, Chairman of the Board of Directors, said: "I'm particularly pleased with the cooptation of Patrick Tillieux as Director and the appointment of Martin de Prycker as Board Observer (he will be proposed as Board member at the next Ordinary General Meeting). They both bring a very deep knowledge of technology industries (including broadcast), and they prepare the transition in the Board while a few mandates will expire/be renewed at the next Ordinary General Meeting of May 2016."

## About EVS

EVS provides its customers with reliable and innovative technology to enable the production of live, enriched video programming, allowing them to work more efficiently and boost their revenue streams. Its industry-leading broadcast and media production systems are used by broadcasters, production companies, post-production facilities, film studios, content owners and archive libraries around the globe. It spans four key markets – Sports, Entertainment, News and Media. Founded in 1994, its innovative Live Slow Motion system revolutionized live broadcasting. Its reliable and integrated tapeless solutions, based around its market-leading XT server range, are now widely used to deliver live productions worldwide. Today, it continues to develop practical innovations, such as its C-Cast second-screen delivery platform, to help customers maximize the value of their media content.

The company is headquartered in Belgium and has 20 offices in Europe, the Middle East, Asia and North America. Around 500 EVS professionals sell its branded products in over 100 countries, and provide customer support globally. EVS is a public company traded on Euronext Brussels: EVS, ISIN: BE0003820371.
