Agenda:

Quorum and majority

The agenda is identical to that of the first Extraordinary Meeting of Shareholders of May 19, 2026. The Extraordinary Meeting of Shareholders will decide regardless of the portion of the capital represented by shareholders. In order to be adopted, the proposed agenda of this Extraordinary General Meeting requires a majority of three quarters of the votes cast at the Extraordinary General Meeting, except for resolution 3, which requires a simple majority of the votes cast to be adopted.

Agenda items

1. Issue of Warrants for the purpose of the Warrant Plan

- a) **Acknowledgement of the special report** of the Board of Directors and the report of the statutory auditor PricewaterhouseCoopers Réviseurs d'Entreprises SRL, prepared in accordance with articles 7:180, 7:191 and 7:193 of the CAC, setting out the purpose and detailed justification of the proposal to issue warrants, with cancellation of the shareholders' preferential right, and with the option for the Board of Directors to, in the event of exercise, either allocate existing treasury shares or issue new shares (the "Warrants").
- b) **Proposal to issue** 250,000 Warrants, subject to the terms and conditions set out below, giving the right, subject to the effective allocation of these Warrants, to subscribe to an equivalent number of ordinary shares of the Company.
- c) **Proposal to cancel the preferential subscription right** of the existing shareholders in favor of the New Beneficiaries (as defined in the terms and conditions of the Warrants).
- d) Subject to the condition precedent of the exercise of the Warrants, and only to the extent the exercise of the Warrants results in the issue of new shares (as opposed to allocating treasury shares), **proposal to increase the capital** of the Company by an amount corresponding to the par value of the share, multiplied by the number of Warrants exercised, i.e. up to a **maximum amount of EUR 153,073**, with

the issue of as many new shares as Warrants have been exercised, i.e. up to a maximum of 250,000 new shares, with the difference between the exercise price of the Warrant and the par value of the share constituting share premium.

Proposed decision: The general meeting decides to issue 250,000 Warrants, with the terms and conditions set out below, giving the right, subject to the effective allocation of these Warrants, to subscribe to an equivalent number of ordinary shares of the Company, with cancellation of the preferential subscription right of the existing shareholders in favor of the New Beneficiaries (as defined in the terms and conditions of the Warrants). Subject to the condition precedent of the exercise of the Warrants, and only to the extent the exercise of the Warrants results in the issue of new shares (as opposed to allocating treasury shares), the general meeting decides to increase the capital of the Company by an amount corresponding to the par value of the share, multiplied by the number of Warrants exercised, i.e. up to a maximum amount of EUR **153,073**, with the issue of as many new shares as Warrants have been exercised, i.e. up to a maximum of 250,000 new shares, with the difference between the exercise price of the Warrant and the par value of the share constituting share premium.

The general meeting confers powers to each two directors, acting jointly, to:

- specify (and, if necessary, have recorded in a notarial deed) the exact number of Warrants to be issued, the final exercise price of the Warrants, the exercise periods, the terms and conditions for adjusting the rights of the Warrants in the event of changes to the capital structure;
- have the completion of successive capital increases and the resulting amendments to the Articles of Association recorded in a notarial deed;
- execute the resolutions to be taken on the foregoing matters;
- for the above purposes, conclude all agreements and, in general, do whatever is necessary.

<i>Changes in the Company's capital structure</i>	<i>Notwithstanding Article 7:71 of the CAC, the Company can take all decisions it deems necessary within the framework of its capital or its articles of association, such as capital increases or reductions, the incorporation of reserves into the capital accompanied by the allocation of free shares, the issue of convertible bonds, bonds with Warrants, other Warrants or options, the distribution of dividends in the form of securities or the modification of the representation of the capital, as well as all decisions modifying the provisions governing the distribution of profits or liquidation surpluses, even if these decisions could have the effect of reducing the benefits granted to the Warrant holders, unless such decisions clearly have such a reduction as their exclusive objective. In the event of a merger or demerger of the Company, the Warrants not exercised at the date of such transaction, as well as the exercise price of such Warrants, will be modified in accordance with the exchange ratio applied to the existing shares of the Company in the context of such merger or demerger. In the event of a stock split or consolidation of the Company's shares, the number of shares to be received upon exercise of the Warrants will be adjusted accordingly to such stock split or consolidation. 	<i>exercise of the Warrants, the Warrant holders will not have the option to exercise their subscription right in advance in order to possibly participate in the new issue as shareholders, to the extent that this right belongs to the existing shareholders.</i>

2. Change of the Company's name from "EVS Broadcast Equipment" to "EVS" and the corresponding amendment of the Articles of Association.

The Board of Directors proposes to amend the company name from "EVS Broadcast Equipment" to "EVS".

This proposed change reflects the natural evolution of the company's activities and strategic positioning. Since its creation, EVS has built a strong global reputation as a leading provider of mission critical technology for live video production, particularly in the broadcast industry. Over the past years, however, the company has significantly expanded the scope of its solutions, technologies, and markets.

Under the company's long term strategy, EVS continues to evolve from a provider historically associated with broadcast equipment toward a broader technology platform enabling live video production workflows across multiple industries and environments.

Today, EVS solutions combine hardware, software, robotics, artificial intelligence and services to support complex live production workflows. These technologies are designed to operate across multiple types of infrastructure depending on the operational needs of customers. They can be deployed on premises using EVS hardware, on premises on commercial off the shelf infrastructure, or in private or public cloud environments. This flexibility enables EVS to support a wide range of production models while maintaining the reliability and performance required in mission critical live operations.

The company therefore increasingly operates as a technology platform delivering integrated and software driven solutions rather than solely equipment. In parallel, EVS continues to expand its presence beyond traditional broadcast markets into adjacent segments such as digital media, live events, corporate communication, entertainment, and other live content environments where reliability, low latency, and operational efficiency are essential.

The current company name, "EVS Broadcast Equipment", no longer fully reflects the breadth of the company's activities, its technological capabilities, or its strategic direction. The reference to "Broadcast Equipment" may create an unnecessarily narrow perception of the company's positioning and does not capture the increasing importance of software, services, automation, artificial intelligence, and flexible deployment models within the EVS portfolio.

Adopting the simplified name "EVS" therefore aims to better reflect the company's identity as a global technology leader enabling mission critical live production workflows. It also supports the company's ambition to continue scaling its platform, strengthening its international presence, and creating long term value for customers, partners, team members, and shareholders.

The proposed name change will not affect the company's legal structure, rights, obligations, or listing on Euronext Brussels.

The Board of Directors therefore recommends that the shareholders approve the amendment of the Articles of Association to reflect the change of the company name to "EVS".

Proposed decision: The general meeting resolves to amend the Company's name, which shall henceforth be "EVS", and to replace article 1 of the Company's articles of association as follows:

Article 1: Name and legal form

The Company shall take the legal form of a public limited company.

It is called "EVS".

3. Powers to execute the decisions taken

Proposed decision: The general meeting confers on each member of the Board of Directors, with the right of substitution, all powers of execution of the decisions taken by the Extraordinary General Meeting. The general meeting gives the instruction to the undersigned Notary, acting alone, to draw up and sign the coordination of the Articles of Association, and to ensure its filing in the Company's file.
