

XHub3.

HARDWARE SYSTEM

XHub3 is the ultimate high bandwidth media sharing network XNet2 hub system. XHub3 allows multiple XT3 and XS production and playout servers to be interconnected through a central hub, offering a bandwidth of up to 1.5 Gb/sec.

In a live or near-live production network environment, XHub3 gives the maximum network configuration security, removing any risks of cascade failure. XHub3 is also the XNet2 network monitoring controller by reporting about overall conditions of the network at any moment (server connection to the XNet2 network, bandwidth status).

KEY FEATURES

-  **XNet2 high bandwidth media sharing network hub system**
-  **Offers the maximum network configuration security (isolated branch)**
-  **Performs accurate network status monitoring**
-  **Multiple hubs can be cascaded**
-  **USB connector for software upgrades**

CUSTOMER SUPPORT & TRAINING

Our clients range from TV stations to video equipment rental companies and production houses worldwide. EVS' key priority is to make sure that its clients keep performing at the highest possible level. We listen to our customers, identify operating workflows, anticipate needs, and suggest effective and reliable solutions, so that they in turn can offer top-quality productions to millions of TV viewers across the globe.

CUSTOMER SUPPORT

EVS is dedicated to making sure its products are functioning in a way that meets your needs and expectations. We offer technical support 24/7 from each of our regional offices, so you can rest assured that someone will always be available to answer any question that may arise.

All members of EVS' technical support team are qualified technicians with a solid background in broadcasting. They understand your requirements and can provide you with the best solution available.

TRAINING

Do you want to learn how to operate EVS systems and applications or enhance your skills in using our tools?

EVS Training offers a series of courses on how to operate its products, taught in-house by industry professionals. Some of the training sessions are conducted by the EVS team via a Web interface, so that you get hands-on instruction even at a distance. EVS User Guides and technical documents are available free-of-charge on our Website.
