

# PRODUCT SHEET

## X-ONE

### UNIFIED LIVE PRODUCTION SYSTEM

X-One brings EVS' market-proven technology into a compact and easy-to-deploy system that delivers a full live production at significantly lower costs. Ideal for smaller-scale productions, X-One allows a single operator to do live switching, create replays and highlights, control audio, create and insert graphics and play back content - all from a set of intuitive interfaces and with guaranteed broadcast-quality output.

### CORE BENEFITS

#### 1 | COST-EFFECTIVE PRODUCTIONS

X-One puts all of the capabilities of a control room into the hands of a single operator - all controlled from the solution's dual touchscreen. Besides generating significant cost savings for your productions, it also makes it economically viable to cover your smaller-scale events.

#### 2 | BROADCAST QUALITY

The system uses EVS' fast and efficient production technology, including its unique frame accurate control and loop recording technology to bring broadcast quality and the reliability that are essential in demanding live environments.

#### 3 | EASY OPERATIONS

X-One's ultra-intuitive user interfaces and remote controller provide quick and precise operations, and its software is simple and straightforward for a short learning curve.

### KEY FEATURES

- / Multicam ingest and playback
- / Live switching
- / Replay and slo-mo
- / Multi-angle clipping
- / Automatic highlights
- / Graphics creation and editing
- / 6 SDI inputs / 2 SDI outputs
- / NDI protocol support
- / Software-defined architecture
- / EVS loop recording
- / Easy to learn interface

## PRODUCT COMPONENTS

### PROCESSING MODULE

- / Software-defined processing module
- / 2RU chassis
- / Onboard storage for up to 8x 600GB disks or 8x 1.2TB (option)
- / LINUX based OS hosting EVS containerized product solutions (built from VIA modules)
- / Onboard SDI I/O card

### SMALL-FORM FACTOR CLIENT

- / Dimensions : 1.4" x 7.1" x 7.2" / 35 x 179 x 183 (mm)
- / Weight: 2.9 lbs / 1.32 kg
- / Mountable behind the monitor
- / Supports two touchscreens
- / Fanless design for quiet operations

### REMOTE CONTROLLER

- / EVS-built controller
- / Connected by USB to XClient or PMX
- / Dimensions : 3.5" x 7.3" x 9.9" / 88.42 x 183.6 x 252 (mm)
- / Configurable buttons

### DUAL TOUCHSCREEN

- / 10 touch points
- / Adjustable stand
- / Choice of 24" or 27" / 610 or 686 (mm)
